Ricotta Pancakes

Prep 15 minutes / Cook 15 minutes

Serves 8-10

3 eggs, separated
2 tablespoons caster sugar
200g fresh ricotta
½ cup (125ml) milk
¾ cup (110g) self raising flour
1½ teaspoons baking powder
Unsalted butter for greasing
Fresh berries, to serve
Maple syrup, to serve

Reduce speed to **FOLDING/KNEADING** and add sifted flour and baking powder and mix until just combined. Return egg white mixture back into mixer bowl and mix on **FOLDING/KNEADING** setting until just combined.

For berry pancakes pour mixture into pan; top with several fresh berries before flipping over and cooking other side.

Mocha Mousse Cake

 Prep 30 minutes / Cook 5 minutes

 Makes 12

350g dark chocolate, chopped
130g butter, chopped
1 tablespoon honey
200g digestive biscuits
4 eggs, separated, at room temperature
300ml thickened cream
30ml strong espresso coffee, chilled
Cocoa powder, to dust
Choc curls, to serve

Method

1. Line the base and sides of a 22cm (base measurement) springform pan with baking paper.
2. Place 50g of the chocolate, 100g butter and honey in a heatproof bowl over a saucepan half filled with simmering water (making sure the bowl doesn't touch the water). Stir with a metal spoon until melted and smooth. Remove from heat.
3. Place biscuits into a food processor or blender and process until finely crushed. Add to chocolate mixture and stir to combine. Spread over the base of prepared pan. Place in fridge for 30 minutes to set.
4. Meanwhile place remaining dark chocolate and butter in a large heatproof bowl over a saucepan of simmering water (making sure the bowl doesn't touch the water). Stir with a metal spoon until melted and smooth. Remove bowl and set aside for 5 minutes to cool slightly. Stir in egg yolks until combined.
5. Assemble mixer with the whisk; add egg whites to mixer bowl. Slowly turn mixer to AERATE/WHIP setting and beat egg whites until firm peaks form.
6. Assemble mixer with the scraper whisk and the small mixer bowl. Place cream and coffee into bowl and attach the pouring cover. Slowly turn mixer to CREAMING/BEATING setting and beat for 1-2 minutes or until just thickened and very soft peaks form.
7. Add half the cream mixture to the chocolate mixture and stir until combined. Gently fold through half of the egg whites and mix until it is combined. Repeat with the remaining cream mixture and egg whites. Spoon mixture over biscuit base. Smooth surface. Cover with plastic food wrap. Refrigerate for at least 8 hours or overnight, until set.
8. Just before serving release cake from the springform pan and peel away baking paper. Place cake onto a serving plate. Dust with cocoa powder, top with choc curls.

For fastest results when making ice cream allow the ice cream bowl attachment to freeze for at least 24-48 hours before using. Allow longer in hotter weather or if fridge and freezer are opened often.

*Ice cream freezer bowl accessory sold separately.
Store bought ice cream can be used.

Salted Caramel Ice Cream

 Prep 15 minutes / Cook 15 minutes

 Makes 1L

1½ cups (375ml) milk
7 egg yolks
¾ cup (165g) white sugar
300ml pouring cream
¾ teaspoon fine sea salt

3. Combine sugar and water in a saucepan and stir over low heat until the sugar has started to dissolve. Increase heat to a medium-high heat. Using a pastry brush dipped in clean water, brush down sides of saucepan with a clean, wet pastry brush to dissolve any sugar crystals and cook without stirring until the toffee starts to turn a rich golden colour. Remove from heat and carefully pour in cream.

Note

1. Mixture may splatter at this stage.
2. Return mixture to a low heat and stir until any lumps have dissolved. Add egg mixture and salt and cook, stirring until mixture coats the back of a wooden spoon.
3. Pour mixture into a heatproof bowl, cover and refrigerate until well chilled.
4. Once chilled pour into ice cream bowl. Set ice cream maker to desired setting and churn.
5. Once mixture is frozen transfer to a freezer safe container and freezer for up to 1 week.

Doughs and don'ts

Moist and crumbly

Pastry has tight, unattached glutens encased in butter

Elastic and spongy

Dough has elastic, entwined glutens

Flour is an intriguing and versatile ingredient. It is quite incredible how foods with such dramatically different textures like crumbly shortbread, compared with a fluffy croissant, a quiche crust or a bread roll, all build their structure using flour.

While the ingredients you mix with flour plays a part, the order in which you add them and the way you combine them is far more important. It's this that determines how much the glutens (the proteins that give dough its elasticity) are developed.

The structure of any dough is essentially determined by how liquids (water or milk) and flour react to one another. The length of time the dough is kneaded as well as the amount of time the gluten in the flour is in contact with liquid is what determines the elasticity of the glutens and hence the dough. Bread dough needs wet flour, heavy kneading and a decent proving time, to maximise its elasticity. But for a crisp, flaky pastry, the opposite is true and gluten development needs to be kept to a minimum. This means adding the fat to the flour before any liquid to form a moisture barrier around the glutens.

The Bakery Boss™ loves making dough – a lot of dough. The high powered motor combined with extra sturdy construction, the Bakery Boss™ can make enough dough for two large loaves of bread. The specially designed dough hook pushes the dough down into the mixing bowl and kneads it with high pressure against the bowl wall, while the bottom hook folds and brings dough ball back up to the top of the dough hook to repeat the kneading cycle. Fast, capable, and very easy.

Quinoa, Linseed & Chia Bread

Prep 10 minutes / Cook 30-35 minutes

Makes 1 loaf

1 tablespoon black chia seeds
1 tablespoon linseeds
2 teaspoons white quinoa
2 teaspoons red quinoa
1¼ cups (330ml) lukewarm water
1½ teaspoons salt
2 cups (300g) bakers flour
1½ cups (240g) wholemeal plain flour
2 teaspoons white sugar
2½ teaspoons instant dried yeast
1 tablespoon olive oil
White and brown quinoa extra for crust

Method

1. Combine chia, linseed and quinoa in a small bowl. Add ½ cup of the water and mix well; set aside for 20 minutes.
2. Assemble mixer using the dough hook. Add salt, flours, sugar, yeast, oil, remaining 1 cup water and soaked seeds into mixer bowl. Slowly turn mixer to FOLDING/KNEADING setting and mix for about 5 minutes. If necessary turn mixer off and scrape sides to lift any flour.
3. Turn dough out onto a lightly floured surface and knead to combine. Place dough ball into a lightly oiled bowl, cover and rest in a warm draught free place for 30-40 minutes or until dough has doubled in size. Turn dough out on bench surface and knock back (punch) the dough to remove excess air, using hands gently push the dough to make a rough rectangle, about 30 x 20cm.
4. Bring one long edge of the dough into the centre then bring the other long edge in. Pinch seam together to seal. Brush with a little water and sprinkle generously with extra quinoa. Flip dough over so the seam is down and repeat with water and quinoa. Cover with a clean towel and allow to rise again for about 30 minutes until doubled in size.
5. Preheat oven to 190-°C fan forced.
6. Once doubled in size, cut three shallow slits with a sharp knife on the top of the loaf.
7. Bake in oven for 30-35 minutes or until golden brown and hollow when tapped on top. Transfer to a wire rack to cool completely. Place in oven for 10 minutes again if serving hot.

Cinnamon Scrolls

 Prep 25 minutes / Cook 20 minutes

 Makes 12

*1½ teaspoons dried yeast
¼ cup (60ml) warm milk
¼ cup (55g) caster sugar
2¾ cups (335g) bread flour
½ teaspoon cinnamon
¼ teaspoon salt
3 eggs, lightly beaten
125g butter, softened and cut into cubes*

Cinnamon filling

*2 tablespoons soft brown sugar
1 tablespoon caster sugar
1½ teaspoons cinnamon
25g butter, softened*

Method

1. Preheat oven to 200°C fan forced. Grease a 12 hole ½ cup capacity muffin tray.
2. Combine yeast, milk and 1 teaspoon of the sugar in a bowl; stir to combine. Allow to sit in a warm place for 5 minutes or until frothy.
3. Assemble mixer using the dough hook. Add flour, cinnamon, salt, eggs, remaining sugar and yeast mixture into bowl. Slowly turn mixer to FOLDING/KNEADING setting and mix until almost combined. Add the butter in, a few cubes at a time, until mixed through (approx 3–4 min).

Tip

1. If some of the butter does not combine then stop the mixer and scrape butter onto dough then mix a little more.
2. Turn dough out onto a well-floured surface and lightly knead until combined. Place in an oiled bowl; cover with plastic wrap and allow to rest in a warm draught free place for about 45 minutes or until doubled in size.
3. Meanwhile to make cinnamon sugar, combine the sugars and cinnamon and set aside.
4. Once rested, place dough onto a floured surface and roll or press out to rectangle shape approximately 25 x 45cm. Using your fingers or a spatula spread the softened butter over the dough. Sprinkle the cinnamon mixture over the dough leaving 1 tablespoon for the tops.
5. Starting from the long side, roll the dough up to form a log.
6. If the dough is sticking as you are trying to roll it use a spatula or flat knife to lift it off bench. The dough should be very soft.
7. Trim ends of roll then cut into 12 equal size portions. Place each scroll, cut side up, into the greased muffin pan. Sprinkle with remaining cinnamon sugar.
8. Bake in oven for 20 minutes. Serve hot.

Gingerbread

 Prep 30 minutes / Cook 15 minutes

 Makes 15-20

Cookies

90g butter
¼ cup (55g) firmly packed soft brown sugar
¼ teaspoon salt
150g treacle
1 tablespoon ground ginger
¼ teaspoon ground cloves
½ teaspoon ground cinnamon
½ teaspoon ground nutmeg
1½ cups (225g) plain flour
¼ teaspoon bicarbonate of soda

Icing

2 egg whites
Pinch cream of tartar
2¼ cups pure icing sugar, sifted

Method

1. Preheat oven to 170°C fan forced. Line two baking trays with baking paper.
2. Assemble mixer using scraper beater. Add the butter, sugar, salt, treacle and spices to bowl. Slowly turn the mixer to CREAMING/BEATING setting and beat for 1 minute.
3. Reduce speed to FOLDING/KNEADING setting; add remaining ingredients and mix until mixture just forms a firm dough.
4. Place dough onto a floured surface. Using a lightly floured rolling pin roll the mixture out to a 5mm thickness. Using a shaped cutter approximately 8cm in size cut out shapes and place onto prepared trays.
5. Bake for about 13-15 minutes. Allow to cool on tray for 5 minutes before transferring to a wire rack. Repeat with remaining dough.
6. To make royal icing, assemble mixer using the whisk and the large mixer bowl. Add egg whites and cream of tartar into mixer bowl. Turn mixer to AERATING/WHISKING setting. Whisk until egg whites form soft peaks. Reduce speed to LIGHT MIXING setting and add icing sugar, a heaped spoonful at a time, and mix until well combined and stiff.
7. Place icing into a piping bag and decorate gingerbread as desired. Icing will harden on standing.

Tip

To make a gingerbread house the mixture needs to be doubled. We recommend using the standard paddle if doubling the recipe.

1. Preheat oven to 160°C fan forced. Grease and line a (25cm x 30cm) lamington pan with baking paper.
2. Sift flour and baking powder together; set aside.
3. Assemble mixer with the scraper beater and the large mixer bowl. Add butter and sugar to bowl. Slowly turn mixer to CREAMING/BEATING for 3-4 minutes or until pale and creamy.
4. Combine cream, eggs and vanilla in a jug. Reduce speed and add half the liquid mixture, then half the flour mixture then repeat with the liquid and flour. Don't over mix. Spread mixture into prepared pan.
5. Bake in preheated oven for 25 minutes or until a skewer inserted in centre comes out clean. Cool for 5 minutes before turning out onto a wire rack lined with baking paper. Leave turned upside down.
6. Meanwhile, to make the lemon curd, beat the egg, egg yolks and strain into a heat proof bowl. Whisk through sugar, lemon rind and juice and butter.
7. Place bowl over a saucepan of simmering water, making sure the base of the bowl does not touch the water. Stir the mixture over simmering water for about 15-20 minutes, or until curd has thickened.
8. Transfer to another bowl, cover with plastic wrap with a small side of the bowl uncovered to allow steam to escape and refrigerate until cold.
9. When ready to assemble, make the meringue. Place egg whites, sugar and cream of tartar into the small mixer bowl. Place bowl carefully into a saucepan of simmering water and gently whisk for 3-4 minutes or until the sugar has dissolved and the mixture has warmed through. Assemble the mixer with the scraper whisk onto the mixer. Whisk on the AERATE/WHIP for about 2 minutes or until mixture has thickened but not too stiff.
10. To assemble, using a 5.5cm round cutter cut 16 rounds from the cake. Spread 1-2 teaspoons of lemon curd onto half of the rounds. With the remaining rounds pipe or shape with a spoon, approximately 2 tablespoons of meringue onto each. Place meringue rounds on top of lemon curd.
11. Using a chef's blow torch, lightly colour outside of meringue. Serve.

Tip

Chefs blow torches can be purchased from good kitchenware stores.

Pavlova

Prep 20 minutes / Cook 60 minutes

Makes 8

6 egg whites (210g)
1½ cups (330g) caster sugar
300ml carton cream
Fresh berries, to serve
Fresh passionfruit pulp, to serve

Method

1. Preheat oven to 120°C fan forced. Mark a 23cm circle onto a sheet of baking paper. Turn paper over and place onto a large greased baking tray.
2. Assemble mixer using the whisk attachment and the large mixer bowl. Add egg whites to bowl. Slowly turn mixer to AERATE/WHIP setting and whisk until soft peaks form.
3. Gradually add sugar making sure sugar is dissolved between each addition. This can take about 10 minutes.
4. Spoon meringue onto paper within the circle; use a spatula to shape sides of meringue into a dome shape.
5. Bake for about 1 hour or until dry. Turn oven off and allow pavlova to cool completely in oven with door slightly ajar.
6. Once cool, assemble mixer using the scraper whisk attachment and small mixer bowl. Add cream to bowl. Slowly turn mixer to CREAMING/BEATING setting and whisk for about 1 minute or until just thickened. Top pavlova with cream, berries and passionfruit pulp.

Lemon Shortbread

 Prep 15 minutes / Cook 30 minutes

 Makes 22

250g butter, softened
½ cup (110g) caster sugar
1 tablespoon finely grated lemon rind
2¾ cups (335g) plain flour

Icing

1 cup (160g) icing sugar, sifted
1 tablespoon lemon juice
1 teaspoon milk or water

Method

1. Preheat oven to 150°C fan forced. Line two baking trays with baking paper.
2. Assemble mixer using the scraper beater. Add butter, caster sugar and lemon rind in mixer bowl. Slowly turn the mixer to LIGHT MIXING setting, beat until butter, sugar and rind start to combine. Gradually increase to CREAMING/BEATING setting. Beat mixture for about 5 minutes or until butter is very pale in colour.
3. Reduce speed to LIGHT MIXING setting and gradually add flour. Once all flour is added, increase speed slightly to mix thoroughly for 30 seconds.
4. Lightly knead dough on a flat surface.

Tip

1. The buttery texture of the mixture should not need a floured surface, but if very sticky on your work surface then lightly flour the surface.
2. Using a lightly floured rolling pin, roll the mixture out to a 1cm thickness. Using a 5cm round pastry cutter, cut rounds of shortbread and place onto prepared trays. Reshape shortbread mixture to get as many rounds as possible. Refrigerate shortbread rounds for 15 minutes.
3. Bake rounds for about 25–30 minutes or until firm. Allow to cool on trays for 5 minutes before transferring to a wire rack. Once cool drizzle with icing.
4. To make icing: Combine icing sugar, lemon juice and milk or water in a small bowl. If mixture is still thick add another ¼–½ teaspoon milk or water. Mix well to combine. Spoon mixture into a zip lock bag. Cut the edge of one corner of the bag to make a small opening, gently squeeze icing and drizzle over shortbread. Set shortbread aside until icing has set.

Coconut Marshmallows

 Prep 15 minutes / Cook 15 minutes

 Serves 24

2 cups (440g) caster sugar
200ml luke warm water
6 teaspoons gelatine
½ cup (125ml) cold water
1 teaspoon vanilla bean paste
2 cups (160g) toasted desiccated coconut

Method

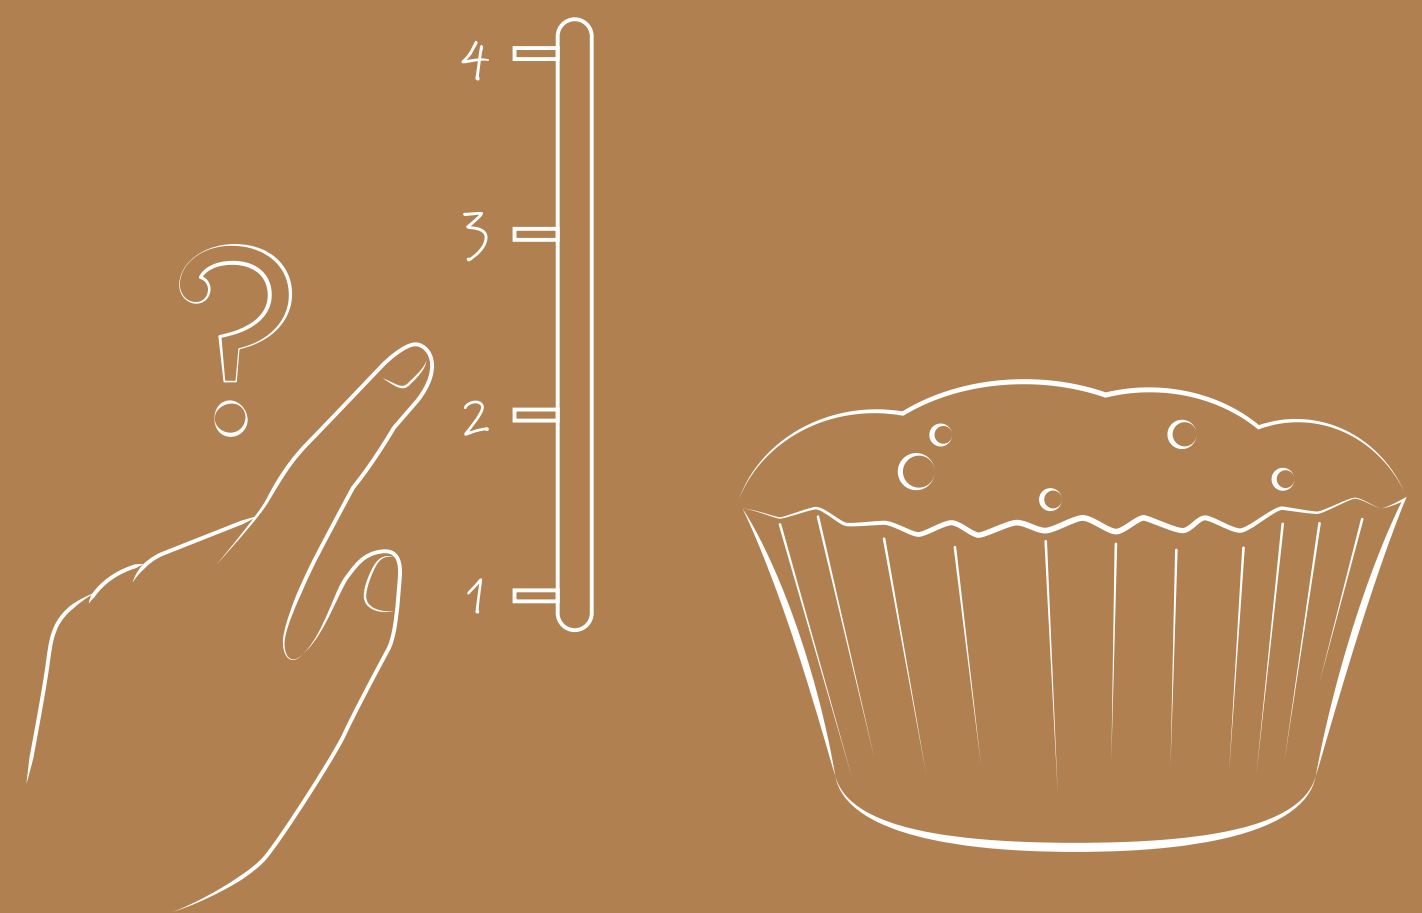

1. Grease and line a 3cm deep, 16.5 x 26.5cm (base) slab pan, allowing paper to hang over sides.
2. Combine the sugar and luke warm water into a saucepan and cook over medium heat, stirring constantly, until sugar dissolves. Brush sides of pan with a wet pastry brush to dissolve any sugar crystals. Bring to boil and boil gently, without stirring for 5 minutes until a candy thermometer reaches 110°C.
3. Sprinkle the gelatine over cold water and stir with a fork to combine. Spoon the gelatine mixture into hot sugar syrup and cook, whisking constantly until the gelatine has dissolved then bring to a gentle boil. Pour into mixer bowl and set aside for 20-30 minutes to cool to room temperature.
4. Add the vanilla to the gelatine mixture. Assemble the mixer using whisk attachment. Place bowl onto mixer. Slowly turn mixer to AERATE/WHIP setting and whisk for 4½-5 minutes, or until the mixture is very thick and white.
5. Spoon into the prepared pan, smooth surface and set aside to cool. Once set (about 2 hours at room temperature) turn out of the pan and use a wet knife to cut into 24 squares. Toss in coconut and set aside until surface feels dry. Serve.

The High Rise.

Mixing with the correct speed and motion is easy with the Bakery Boss™

It's easy to over mix or under mix if you don't know the right speed and motion

It's fascinating to think that out of all of the ingredients we use for baking, one of the most important ones is one that is invisible to the eye. When we think of leaveners, we tend to think of chemical leaveners (baking powder, bicarbonate of soda) and biological leaveners like yeast. But air, a mechanical leavener, is fantastic when it comes to achieving a light and fluffy texture instead of something dense and flat.

Leavening occurs when mixtures release gasses and create a porous structure in the batter. These tiny air cells then expand (rise) and then maintain their structure when heated in the oven. But where does all of this air come from in the first place, and how does it make its way into the mix? The secret is in the mixing technique.

Creaming, beating, whisking, kneading stirring and whipping are all ways of incorporating air. Ensuring these precious air bubbles remain is why so many recipes say "do not over mix." By gently folding in our dry ingredients like flour, baking powder, cocoa, etc, we can combine the ingredients without running the risk losing air bubbles.

In order to incorporate the right amount of air into the batter, it's important to mix using the correct speed and motion. This is where the Breville Bakery Boss™ speed selector dial comes in - it takes the guesswork (and the physical work) out to ensure your mixture is correctly and evenly mixed.

Apple Tea Cake

3 cups (450g) self raising flour
2 pink lady apples, cored and sliced
1½ tablespoons demerara sugar
2 tablespoons apricot jam, warmed and sieved
Double cream, to serve

Method

1. Preheat oven to 160°C with fan. Grease and line a 25cm springform cake pan with baking paper.
